

# MovableInterface

```
classDiagram
    class MovableInterface
    class SpiralMove
    SpiralMove --|> MovableInterface
```

A UML class diagram showing an inheritance relationship. A box at the top contains the text 'MovableInterface'. A box at the bottom contains the text 'SpiralMove'. A vertical arrow points from the 'SpiralMove' box up to the 'MovableInterface' box, indicating that 'SpiralMove' inherits from 'MovableInterface'.

## SpiralMove
